UKRASNE LAJSNE I ELEMENTI OD POLISTIROLA

O NAMA

Yum Commerce d.o.o. je proizvodno, trgovinsko i uslužno preduzeće koje se bavi proizvodnjom ukrasnih lajsni i elemenata od polistirola. Osnovano je 1997. godine u Subotici i uspešno posluje kako u zemlji tako i u inostranstvu. Proizvodni program obuhvata preko 350 vrsta unutrašnjih i fasadnih proizvoda, koji značajno pojednostavljuju izvođenje završnih radova u građevinarstvu. Zahvaljujući širokoj paleti proizvoda, pružamo Vam mogućnost da bez prevelikog ulaganja i stručnog znanja učinite svoj dom lepšim i prijatnijim. Prednosti ovih proizvoda su: lakoća materijala, pojednostavljena ugradnja i lako bojenje u željeni ton. Zahvaljujući sopstvenoj proizvodnji možemo brzo ostvariti želje klijenata, izradu specijalnih, vanstandardnih profila i elemenata. Yum Commerce je svoj sistem menadžmenta uredio kvalitetom u skladu sa procesnim pristupom i modelom definisanim u standardu ISO 9001:2008.

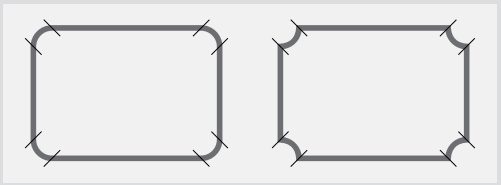
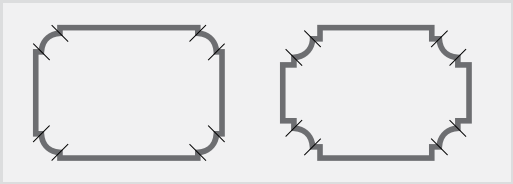
UGLOVI



Kombinacije sklapanja uglova



Za sve unutrašnje ukrasne zidne lajsne (**YD** *str 11–12*) u našem asortimanu postoji adekvatan ugao. Prilikom sastavljanja ugla sa lajsnama, lajsne se postavljaju pod uglom od devedeset stepeni, pri čemu se seku samo lajsne. Pod uglom se podrazumeva samo deo koji ide između pravih lajsni.

Akrilni git

Ovaj proizvod je prvenstveno namenjen lepljenju unutrašnjih lajsni iz našeg proizvodnog asortimana. Jednim pakovanjem akrilnog gita možete postaviti 6-10 dužnih metara lajsne.

THERMOSTONE

Thermostone je ukrasni element od stiropora koji Vam omogućava da vizuelno oplemenite kako enterijer tako i eksterijer. Ovi ukrasni elementi su velike mehaničke čvrstoće, a ujedno pružaju i određeni nivo termoizolacije. Postoje dve varijante: YTS je pripremljen za spoljašnju upotrebu koja odgovara i unutrašnjoj, dok je YTS–N samo za unutrašnju upotrebu. Ovi elementi se mogu farbati raznim bojama u svim nijansama, zavisno od efekta koji želite da postignete.

THERMOWOOD

Thermowood je ukrasni element od stiropora koji omogućava da vizuelno oplemenite, kako vaš unutrašnji tako i spoljašnji prostor. Ovi ukrasni elementi pored svog vizualnog efekta pružaju vam i određeni nivo termoizolacije. Modeli YTW–1 i YTW–3 imaju strukturnu površinu i na taj način dočaravaju prirodno drvo i vizuelno i na dodir, dok modeli YTW–2 i YTW–4 nemaju površinsku strukturu i daju samo vizuelni efekat. Njihov završni premaz je fleksibilan, paradifuzan i otporan na vlagu.
